

## Reinforcing & Repairing Corners & Headcaps

### Protecting Book Corners from Wear with Demco® Reddi Corners

Demco® Reddi Corners keep book corners looking neat and lasting longer. Apply at the first sign of wear for dependable reinforcement. Reddi Corners are quick and easy to use. First, trim any ragged fabric from the book corners. Then peel off of the liner paper, place on the corner of the book and fold both flaps to the inside cover. Smooth with a bone folder. One size fits all book corners.

Available in transparent polyester and polypropylene, excellent for repairing and protecting without covering up graphics or printing.

Or choose Reddi Corners made from Fastape®, available in a variety of colors to blend with cloth-bound books.

### Reinforcing & Repairing Headcaps Using Demco® Book Repair Wings

Demco® Book Repair Wings protect the top and bottom of book spines, right where they get the most wear and tear. They provide extra strength by overlapping book edges for added durability. To prevent damage, apply to new books before they start to show signs of wear. One size will fit most books.

To apply, remove from the paper liner and place on the book with the edge of the wing flush to the end of the spine. Fold the flaps onto the outside covers and then overlap into the inside covers. Smooth with a bone folder.

Available in transparent polyester and polypropylene, excellent for repairing and protecting the tops and bottoms of book spines without covering printed information.

Or choose wings made from Fastape® or Tyvek®, available in a variety of colors to blend with cloth-bound books.
